Consumer Tech

A public benefit corporation that creates next-gen technology to assess potential threats in real-time & automates interventions to keep people safe in dangerous situations before they even know they may need it, without having to active a button or dial a number.

Erin Rose
Huntington Woods, MI

Consumer Tech

Follies is on a mission to unleash big-sized creativity for bright little minds. Kids connect the big building shapes to create whatever their imagination comes up with; a spaceship, a puppet theater, a playhouse, the possibilities are endless. Follies is the first line of toys in the market designed with family living needs in mind and a Toy of The Year nominee for 2022.
